**Technical leader with 8+ years of experience** in systems & networks administration, account management, internal tools development, technical support, and project management. Currently wrapping up a telecommunication contract and looking for opportunities to bring support and value to customers with more complex technical needs. Proficient in network & applications deployment and troubleshooting of macOS, Windows, and Linux devices in consumer and enterprise environments. Skilled in inventory management, CRM, case management systems, technical writing and documentation, audio/visual support, and web application development. Passionate about working with multi-platform software and hardware solutions and helping others navigate and resolve real-life problems with technology.

## Skills

**Operating Systems:** Windows, Windows Server, macOS, iOS, CentOS, Red Hat Enterprise Linux

**Programming Languages:** Python, TypeScript, JavaScript, Bash, PowerShell

**Sysadmin:** Active Directory, Microsoft Office 365, Exchange, Microsoft Remote Desktop (RDP), Jamf, VMware

**Application Development:** AWS, React, React Native, Node.js, Docker, OpenShift, Kubernetes, Terraform

**Hardware & Media:** Conferencing Systems, Microphones, Mixing Consoles, PA Systems, Audio Interfaces, Wireless Audio (UHF), Digital Audio Workstations (Ableton, Pro Tools), MIDI, Adobe Creative Cloud, Figma

**Consumer Tech:** PC, MacBook, iPhone, iPad, Modems (DOCSIS 3.0, 3.1), Routers, Switches, Fiber, Coaxial, Ethernet

**AI & Data Platforms:** Claude, ChatGPT, Copilot, Jupyter Notebook, Tableau, IBM Cognos

## Experience

### IT Sales Consultant II

July 2025–Present

Comcast

- Managed accounts for 200 customers per month, serving as the main point of contact for technical questions and demonstrations of new Xfinity and Comcast Business products.
- Produced an average of \$8K monthly revenue from new accounts, retention consultations, and device purchases.
- Served as designated regional Apple Expert, delivering product education, technical support, and seamless device activations and transfers for iPhone, iPad, and macOS users.
- Provided in-house support and operations management for CRM and inventory software in local Xfinity locations.

### IT Software Developer, DevOps

Jan 2021–Oct 2024

IBM

- Developed nightly build pipeline & reporting system for 80+ IBM OpenPages SaaS development environments, increasing build status check frequency and accuracy, and resulting in a tripled increase in developer productivity.
- Enhanced code coverage pipeline built with Jenkins and SonarQube, running 120+ Selenium & Cypress tests, 200+ Jest tests, and over a thousand JUnit tests, increasing coverage by 32%
- Led UI automation team of 10 engineers across the US, Canada, Poland, and India as Scrum Master, implementing the best practices in quality assurance and testing to enhance code quality and reliability
- Mentored dozens of developers in DevOps & Sysadmin processes including CI/CD, Jenkins, automated testing with Cypress and Selenium, and Infrastructure as Code (IaC) with Terraform, AWS, and IBM Cloud

### IT Project Management Co-op

Jan 2020–Jul 2020

Harvard T.H. Chan School of Public Health

- Managed cross-platform software upgrades and migrations for 150+ devices using Jamf and VMware Horizon
- Designed and delivered functional wireframe design for A/V inventory application and relational database
- Created script to find outdated links in university websites and output a report for Web Development team
- Completed technical support tasks for administrators and researchers as assigned by Senior IT Project Manager

### IT Support Technician Intern

May 2017–May 2018

Texas A&M International University

- Provided technical support in-person, via phone, e-mail, chat, and RDP for students, professors, and staff
- Maintained 100+ sign-in devices, computer labs, video projectors, and conferencing systems across campus
- Decommissioned unused storage and equipment to comply with university security & data retention policies
- Tracked and transported surplus audio/visual and recording equipment as requested by customers and CIO

## Education

**Northeastern University** – Boston, MA

Sept 2018–May 2022

Khoury College of Computer Sciences

Bachelor of Science in Computer Science + Music Composition & Technology
